2. Installation

2-1 Static Electricity Precaution

One of the routine precautions you must be aware of when working with computer components is the problem of static electricity discharge

Caution: Static Electricity Discharge may permanently damage your system. To avoid possible static electricity discharge during the installation, please follow the guidelines below:

- Discharge any static electricity build up in your body by touching a large grounded metal surface or the computer case (if plugged in), for a few seconds
- During the installation, avoid any contact with internal parts

2-2 Hardware and Software Installation

1. Unpack the package, take the USB-to-ExpressCard Adapter and USB upstream cable out.
2. Plug USB upstream cable to the rear of USB-to-ExpressCard Adapter.
3. Plug USB upstream cable to the USB port on your notebook PC.
4. Windows 2000, XP, Server 2003 and Vista will automatically detect and install for this USB-to-ExpressCard Adapter.
5. The USB-to-ExpressCard Adapter is now ready.
