

Full Speed M.2 NVMe SSD to PCIe Adapter with Heatsink

Quick Start Guide

Features

- Support M.2 PCIe (AHCI or NVMe) SSD
- (*Do not support M.2 B key & M.2 SATA SSD)
- Support sizes 2230, 2242, 2260 and 2280
- Support PCIe 3.0 and backward compatible with PCIe 1.0 and PCIe 2.0
- PCIe x16 slot and compatible with x4, x8
- Thermal Pad included, promote heat dissipation
- No driver installation required

Package contents

- M.2 SSD to PCIe Adapter with Heatsink
- Thermal Pad x3 (remove covers before use)
- Screwdriver
- Quick Start Guide

System Requirements

1. Desktop PC with an available x4/x8/x16 PCIe slot
2. Windows® 10 (32-/64-bit) / 8.x (32-/64-bit) / 7 (32-/64-bit) / Server 2012 R2 / 2008 R2

Thermal Pad

Base on thickness of M.2 SSD, choose two suitable thermal pads to stick on M.2 SSD and make it closer to heatsink and PCB.
