Tools required not included

1

Carefully remove the desk from the packaging and set on a clear tabletop

When carrying the lift table, be sure to hold the bottom with both hands. Do not subject the table to a separate force. This can cause the tabletop to be out of step with the bottom structure.

Warning: Impact Hazard! Moving Parts can Crush and Cut.

2

Flip the desktop over
Attach the extended feet (B) to the frame using screws (D)

3

Press the handles in each side and lift the desktop

4

Mount bracket (H) to keyboard tray using screws (C)

7

Attach cable tie (F) to desk to manage keyboard and mouse cables

5

Mount keyboard tray to desk using screws (E)

8

Manage cables using cable zip-ties (I)

6

Place items on desktop

⚠ Keep monitor and laptop base fully on the worksurface. Allowing any part of base or stand to hang off the edge may result in property damage and or personal injury.

⚠ Raise worksurface slowly. Raising worksurface too fast may create an unstable situation resulting in property damage and or personal injury.

⚠ Leave enough slack in cable to allow for full range of vertical motion (15" / 38 cm). Failure to heed this warning may result in property damage and or personal injury.

⚠ To avoid the potential to pinch cables it is important to follow the cable routing instructions in this manual. Failure to follow these instructions may result in equipment damage or personal injury.

! WARNING

PINCH POINT

DO NOT place hands on or near support bars. Pinch points are created during lifting and lowering the worksurface. Failure to follow these instructions may result in serious personal injury.
